ALUMNI ASSOCIATION

VISION

The Alumni Association of Shanmuganathan Engineering College strives to develop strong connections between the institute and its family of alumni and perpetuate a desire for life-long involvement with the institute

MISSION

- To establish a spirit of loyalty to the institute.
- To foster a strong bond between the alumni, students and the institution.
- To advance Shanmuganathan Engineering College through programs that serve as bridge between industry and institute.
- To investigate new opportunities and find prospective careers for students in fields of emerging trends and technologies.

OBJECTIVES

- To facilitate professional networking for mutual benefit in academic and professional career.
- To facilitate alumni to contribute to the institute's initiatives for achieving excellence in academics, research, consultancy, training and placement.
- To facilitate the association of alumni with their Alma mater.

Alumni write up

By Mr.P.Manikandan (Department of Electronics and Communication Engineering, 2013-2017)

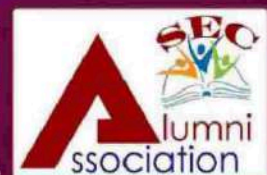

Journey from SEC to ORACLE

P.Manikandan, Technical Lead, Bengaluru, India

In 2013, I started my journey in SEC by pursuing Bachelor of Engineering degree in Electronics and Communication Engineering. During that period, I had the opportunity to learn from some of the most experienced professors in the field. They provided me with guidance and support in all aspects of my education, from choosing the right projects to conducting research and participating in workshops and conferences. Looking back at my undergraduate experience, I feel that it was a truly transformative time in my life. I learned so much, not only in terms of technical knowledge but also about myself and my place in the world. I made lifelong friends and developed important relationships with mentors who continue to influence my life today.

I am also grateful to have had such wonderful mentors and guides during my studies at SEC. Their support and expertise were critical to my success, and I will always remember the lessons they taught me

Alumni write up

*By Rajha pandiyan. (Department of Electrical and Electronic Engineering, 2002-2006),
Solutions Architect, Hitachi Vantara.*

SEC laid the foundation for me. Not just academics, but also in terms of exposure, building the quality to strive for competence in work life. Those college days sets me up giving the right boost to be a real sportive person, which really helped me crossing the barriers throughout :) I really enjoyed SEC's culture and flexible environment. I can still relish and cherish those wonderful memories, which is 17 years back(2002-2006) ;)

My heartfelt thanks to the management and faculties for their passion and dedication for their exemplary service.

*Thanks and Regards
Rajha pandiyan.*

By Duraimurugan Arjunan (Department Electronics and Communication Engineering, 2002-2006)

Journey from SEC to ROBERT BOSCH

Duraimurugan Arjunan, Senior Project Manager, Robert Bosch.

Duraimurugan Arjunan, Senior Project Manager, Robert Bosch. Campus to corporate is a life-changing transformation. I am Duraimurugan Arjunan, I pursued my Bachelor of Engineering from SEC between 2002 to 2006. I got my specialization in Electronics and Communication Engineering I currently work as an Senior Project Manager, Robert Bosch. My experience with SEC has taught me a fundamental thing – embrace each opportunity that you encounter. SEC has also taught me the life skills which are the utmost tools to tackle the job environment. I was no exception. Coming from a rural background, even though I was not financially independent. As a lateral entry student, I found it difficult to adapt, but our faculties helped me a lot in this regard. I had a high fear of the M3 and M4 papers, which are very tough for lateral entry students, but the Math Department faculty helped me a lot to overcome this hurdle. In our department, our faculties helped me a lot, and as Socrates said, "I cannot teach anybody anything; I can only make them think," here our faculties made me think about what's next. SEC College of Engineering welcomed me with merit-cum-mean scholarships, and I got the merit scholarships all three years. I thank the SEC management.

Alumni write up

By Deivanai Hariharan (Department Electronics and Communication Engineering, 2017-2021)

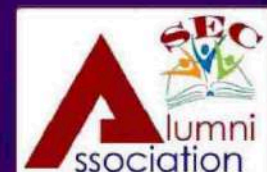

Journey from SEC to CTS

I am Deivanai Hariharan. My journey in SEC is a beautiful and most memorable part of my life. Every year, SEC conducts the SEC FEST for school students. I participated in those competitions during my 11th and 12th grades. I won the first prize in Tamil essay writing during my 11th. That time they provided a cash prize and encouraged us. Again the next year, I participated in the SEC FEST. But this time, I lose in the same competition where I won. But this year, they provided a 100% scholarship for the students who won, along with the cash prize. I feel very bad on that day, that I didn't get the scholarship. For me the scholarship is much more important to pursue my degree. At that time, I don't know that SEC will provide scholarship for the students who scored more than 1100 in 12th. Surprisingly, I scored 1115 marks in my 12th grade and got the 100% concession and free transportation from SEC. That is the turning point of my life, then I

pursued my bachelor's of engineering in the stream of Electronics and Communication Engineering (2017-2021) and completed my four years with this scholarship. Talking about the faculties, they are not even faculties, they are much more like a family. The teaching style of each and everyone is just awesome, with crisp and clear explanations, which helped me to clear my semesters easily. For me, it's a corona time during my 3rd and final years. Even in that situation, they provided their knowledge through the online classes. Here, I had so many opportunities to develop my knowledge in various activities like symposium, cultural and other department related activities. All four years went awesome, and with the knowledge and trainings got from here I attended various leading companies interviews and then got placed in Cognizant (CTS) and Capgemini. Being a first graduate and not that much financially independent and from a rural background to get placed in IT is a dream come true moment and I got achieved this because of the awesome lessons gained from here. Now I am working as a Programmer Analyst in CTS, Chennai for the past 1.5 years. By taking this opportunity, I would like to show my sincere gratitude each and every person associated with SEC for creating bright future for the students and making so many students dream to reality.

Thanks and Regards,
Deivanai Hariharan

Alumni write up

By Karthick Varadhan, (Department Electronics and Communication Engineering, 2016-2020)

Journey from SEC to Asst. Manager (SAP), Deloitte India

Stop doubting yourself, work hard and make it happen”, this is what SEC taught me in the 4 years of education. Hey Everyone, I'm Karthickvaradhan from ECE Department 2016 Pass out. I would like to thank my ECE department for giving me strength and ability to rise from tough situations. A huge thanks to our Management who has always been a constant support and a backbone in anything related to co-curricular activities. Also, a warm thanks to HoD and all the faculty members, supporting staff and my dear friends. I'm happy about my career curve from Engineering student to an SAP Assistant Manager @Deloitte India. I express my Sincere Gratitude to our college which has guided me to become who I am today.

I always cherish the memories that I had in my college days...

Thanks and Regards

Karthick Varadhan

COGNIZANT TECHNOLOGY SOLUTIONS, BANGALORE.*

SEC for helping me in each step of my career and especially pleased to have the opportunity to share some of my thoughts and observations about our college. SEC had stepping stone for us in understanding how to achieve our goals during this difficult situation to our college managed to give us what is assured. They make sure to provide us all the necessary information required I really appreciate their level of effort and patience during virtual learning. Our personal assigned mentors helped us in all the aspects of difficulties. HOD and the entire team of SEC for pushing us to improve our knowledge. Looking forward to opportunities and internships to achieve my goals. Apart from everything SEC provides us a great platform for skills enhancement.

Thanks and Regards
Subramanian

Arasampatti-622 507, Thirumayam (Taluk), Pudukkottai (District).

Alumni write up

*By Raja Srinivasan. (Department of Computer science and Engineering, 2003-2006),
Senior consultant in TATA Consultancy services in Stockholm Sweden.*

SEC has very prominent professors, Dean, Director, Correspondences who handled the students in a gentle way to bring their ability; SEC given support on Tuition fees, books concession, good Infrastructure- Labs, Internet facilities. Each student got the same level of attention and importance of raising their standards by various training classes, infra supports and achieving the individual vision because mostly all students from medium of instruction a Tamil also students from underprivileged less exposure. they made student as self-sustain.

We got the very good support on each subject especially on Mathematics, from Math's department since who is from Diploma, we have limited scope on Mathematics. The vision of SEC is to service the students and bringing up their inner ability, the technical strongness, understanding the core concepts; with various teaching methods, bringing up guest lectures & each year technical symposium and visits which taught us how to be confident & approach the outside world.

The SEC gave us the fundamental pillar and principle to understand the services for humanity, beyond the other materialistic and monetary importance. I am applying the same before doing anything, which is of more of ethics and fundamental professionalism

Thanks and Regards

Raja Srinivasan
